Gary:

We plan on doing the transfer tomorrow. If the vapors are too strong we will stop and wait until it is in place. Heavy rain currently moving water.

Gary:

We have bids coming in today from several vendors on the vapor treatment units. Phillip will notify us when they come in. We will award as soon as possible.

Gary,

The carbon is not included in the initial pricing. It would be \$1,395.00 plus \$5,600.00 with the carbon.

Patrick:

Is the carbon included in the initial pricing and then any refill are 1.40/lb?

Gary,

The weekly rental rate is \$1,395.00. It comes preloaded with carbon that is \$1.40 per pound. The soonest it could be ready is this afternoon.

Patrick:

We are looking at various vendors currently but we will likely need a unit on Monday or Tuesday morning early that is set up and ready to go.

Can you give me your pricing?

Gary,

I have included the data sheet of the vessel that I believe you will need. When will you need this unit by?
